

DEPARTMENT OF THE NAVY  
Chief Information Officer  
1000 Navy Pentagon  
Washington, DC 20350-1000

To our DoN Partners:

We're nearly one year into implementation of our Department of the Navy IM/IT Strategic Plan and making great strides toward accomplishing our goals. As we achieve success after success in the important field of IM/IT, we need to continuously focus our efforts on fostering and incentivizing a technology-enabled information-rich culture. This cultural change is so difficult to accomplish.

The Enterprise Solutions Program is geared toward achieving cultural change. It is an enabler to corporately leverage our DoN investment in information technologies, share knowledge, provide enterprise-wide tools, promote the alignment of IT investments with our corporate mission, and incentivize innovation that transforms the DoN.

This catalog is designed to provide you with a synopsis of the DoN IM/IT goals and related tools and training that will help the Department of the Navy achieve its mission. This second printing adds important tools coming out of our enterprise knowledge management focus and the beginnings of a program to reward knowledge sharing. Let's continue working together to make our dreams our reality.
